

Seminar on Radioecological Studies after the Fukushima Accident

1st announcement

The Royal Swedish Academy of Sciences and The Swedish Society for Radioecology are planning a joint seminar in Stockholm, January 10. The seminar is held as a continuation of the NKS SEMINAR ON THE FUKUSHIMA ACCIDENT AND PERSPECTIVES FOR NORDIC REACTOR SAFETY AND EMERGENCY PREPAREDNESS, January 8-9.

The objective of the seminar is to give an overview of radioecological studies performed after or implied by the Fukushima accident, both in Japan and elsewhere. The seminar programme will consist of invited speakers but we also welcome proposals for oral presentations.

Details about the programme and registration will follow in the 2nd announcement. For more information until then, please contact Mats Isaksson (mats.isaksson@radfys.gu.se).
