
Announcement of Call for Proposals 2008

The NKS invites proposals for activities to be supported (up to 50% of total cost) in 2008. The framework for the two programs, NKS-B and NKS-R, has been revised by the NKS Board. This revision included suggestions for activities to be prioritized. The arrangements for submitting and evaluating proposals are however similar as in previous years. Information, instructions and application forms can be found on the NKS web site for each of the two programs.

The NKS Board decided at its last meeting that work groups should define priorities as guidance before the next call for proposals. The NKS-R priorities are of a very general nature, with no specific areas listed. The work on NKS-B priorities will be made public on the website on August 22. Please note that all such priorities (both R and B) are guidelines and suggestions, not mandatory requirements.
