

## CALL FOR PROPOSALS 2026

NKS invites proposals for activities to be supported (up to 50% of total cost) in 2025 under the NKS-R and NKS-B programmes from an expected budget of at least **3 million DKK** for each programme. No specific priorities have been identified with this call, but proposals must address at least one of the research areas as described in the respective NKS-R and NKS-B frameworks. Information regarding the NKS-R and NKS-B frameworks as well as instructions for applicants and application forms can be found via the links below.

NKS-R Programme

[http://www.nks.org/en/nksr/call\\_for\\_proposals/](http://www.nks.org/en/nksr/call_for_proposals/)

NKS-B Programme

[http://www.nks.org/en/nksb/call\\_for\\_proposals/](http://www.nks.org/en/nksb/call_for_proposals/)

Potential NKS-B applicants might possibly find this [link](#) inspiring.

For further information on possible NKS-B proposal plans following the Vattenfall workshop in May 2025, you are welcome to contact Mikael Meister, Vattenfall ([mikael.meister@vattenfall.com](mailto:mikael.meister@vattenfall.com)).

Note that we also plan to shortly set up a database option for young scientists to briefly present their interests and competences for potential inclusion in NKS activity proposals, so proposal leaders can judge if they can make a match. NKS has a strong wish to increase the participation of young scientists in the activities.

**Please note that the deadline for submitting proposals is the 15th of October 2025 (for both NKS-R and NKS-B).**

**NKS looks forward to your proposal !**
